SUMMARY

Third-year Software Engineering undergraduate at the University of Kelaniya with a strong passion for full-stack development and cloud technologies. Experienced in building practical, real-world solutions using modern tech stacks. Motivated to contribute to impactful projects, excel in collaborative environments, and continuously grow as a developer and team player.

EDUCATION

B.Sc.(Hons.) Software Engineering

University of Kelaniya

April 2024 – Present

- CGPA : 3.68
- Specializing in Net-Centric Applications, Data Science and Engineering Applications and Health Informatic Applications domains

G.C.E. Advanced Level

C. W. W. Kannangara Central College, Mathugama

2013 – 2021

- Physical Science Stream
- Z – score : 1.4867

SKILLS

Languages: Java, JavaScript, TypeScript, Python

Frontend: React, HTML5, CSS, Tailwind CSS

Backend: Spring Boot, Node.js, Express.js, FastAPI

Architecture/APIs: REST APIs, Microservices, API Gateway, JWT

Databases: PostgreSQL, MySQL, MongoDB, Redis

DevOps/Cloud: Docker, AWS, Git

PROJECTS

MERN E-Commerce App – Individual

[GitHub Repo](#)

Developed a full-stack e-commerce platform with user authentication, product management, shopping cart, order processing, and Stripe payment integration. Built a responsive React frontend, created REST APIs using Node.js and Express.js, managed data with MongoDB, and deployed the application using Docker.

- **Technologies:** React.js, Redux, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs, Axios, Stripe API, Docker, Git

ChatSphere – Individual

[GitHub Repo](#)

Developed a full-stack real-time messaging application using the MERN stack, Socket.io, and WebRTC. Implemented real-time one-to-one messaging, online presence, typing indicators, and peer-to-peer voice and video calling. Built secure JWT authentication with HTTP-only cookies and integrated Cloudinary for image storage. Containerized the application using Docker and deployed the frontend and backend separately.

- **Technologies:** React.js, Node.js, Express.js, MongoDB, Socket.io, WebRTC, JWT, Cloudinary, Docker

ReserveX- Group Project

[GitHub Repo](#)

Developed a full-stack stall booking platform for the Colombo International Book Fair with interactive floor-plan based stall selection, vendor and admin dashboards, and role-based access control. Implemented secure JWT authentication, email notifications with QR-coded receipts, and reservation management features. Built RESTful APIs using Spring Boot and developed responsive React interfaces with MySQL database integration for efficient booking operations.

- **Technologies :**Java 17, Spring Boot, React.js, MySQL, JWT, SMTP, Axios, Vite, Maven, REST APIs

HireSense - Individual

[GitHub Repo](#)

Developed a full-stack AI interview preparation platform with AI-generated interview questions, resume analysis, voice feedback, and performance evaluation features. Implemented secure user authentication, interview management, analytics dashboards, and responsive user interfaces using React and FastAPI. Built RESTful APIs, integrated AI services, managed data with PostgreSQL, and containerized the application using Docker for scalable deployment.

- **Technologies:** React.js, TypeScript, Python, FastAPI, PostgreSQL, Docker, Groq API, Web Speech API, Redis, Tailwind CSS, JWT, REST APIs

Inkspire - Individual

[GitHub Repo](#)

Developed a full-stack blogging platform using a microservices architecture with user authentication, post management, likes, and comments features. Implemented an API Gateway for service communication, JWT-based authentication, and used multiple databases with Redis and RabbitMQ for efficient data handling. Containerized the application using Docker.

Technologies :React.js,Node.js,Express.js, PostgreSQL, MongoDB, Redis, RabbitMQ, JWT, Docker, Axios

CERTIFICATES

- Diploma in Website Development using HTML and CSS - Alison
- Java Intermediate - sololearn
- Introduction to DevOps - Microsoft
- AWS Cloud Practitioner Essentials - AWS

VOLUNTEERING

- | | |
|---|----------------|
| • Member, IEEE Student Branch | 2024 - Present |
| • Member, Software Engineering Students' Association (SESA) | 2024 - Present |
| ▪ Finance coordinator of JuniorHack 7.0 : 2025 | |
| • Head of IR & IE, IEEE WIE Student Branch | 2025 - Present |

LANGUAGES

- English : Professional Proficiency
- Sinhala : Native Proficiency
